▶ India Habitat Centre (IHC),
Lodhi Road, New Delhi

Theme:
*Driving HSE Culture for
Building Resilient Organization*

Organized by

GAIL (India) Limited

CHAIRMAN'S MESSAGE

Dear Industry Colleagues,

It gives me an immense pleasure to invite you all for the 2nd Oil & Gas HSE Conclave scheduled to be held on December 11-12, 2019 at the India Habitat Centre, New Delhi.

The theme of the conference is **“Driving HSE culture for building resilient organisation”**. The Theme of this conclave has been carefully chosen focusing on the worldwide current scenarios of evolving HSE Culture in Oil and Gas industries.

In today's business scenario, there is an emergent need for the industries to adopt Risk Based HSE culture focusing on risks associated with the operation and maintenance activities. Risk based culture needs to be fully integrated in the routine safety practices and operational processes including employee's mind-set and behaviour at workplace. An effectively managed operational risk based governance system will enhance the line management capacity and competency along with accountability and ownership of risks. To achieve effective risk management, organizations must focus on being proactive, rather than merely reactive, and use risk management to both drive competitive advantage and sustain future profitability and growth. An integrated approach for managing processes risks, resources, and a strong HSE culture & discipline is required for building a resilient organisation culture. All the companies should work in the direction of Safety Maturity Index now. The leadership team across the organisations have to play a key role in leading this paradigm shift of transforming HSE culture, to build safe, sustainable and state of the art business processes.

GAIL (India) Ltd is proud to announce its 2nd edition of Oil and Gas HSE Conclave scheduled on 11th and 12th Dec, 2019. The First edition of HSE Conclave was successfully organised in Dec, 2017 which was attended by 400+ participants from Oil and Gas industries with more than 40+ key speakers from India and abroad.

This 2nd edition of Oil & Gas HSE conclave and exhibition will provide an excellent platform for stakeholders from the Oil and Gas Industry to build partnerships and share knowledge in the field of HSE. I am confident that this event will provide a great opportunity for knowledge sharing and discussion of global best practices that will further contribute to the creation of a proactive and dynamic safety culture in the workplace.

I once again, on behalf of GAIL (India) Ltd would like to take this opportunity with great privilege to invite all distinguished members of the industry to actively participate at the gathering of HSE leaders, practitioners and experts from the Hydrocarbon industry.

We look forward to welcome you at the conclave.

Dr. Ashutosh Karnatak

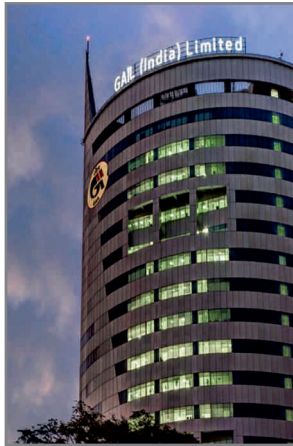

Chairman, Oil & Gas HSE Conclave
CMD and Director (Projects), GAIL (India) Limited

2nd Edition
OIL & GAS
HSE Conclave
 New Delhi | India

GAIL (India) Limited

ABOUT CONFERENCE

GAIL (India) Limited is the Youngest Maharatna company of Govt. of India. It is the one of the leading organization of the country which is in to Natural gas, liquid Hydrocarbon transmission and petrochemicals. To demonstrate our highest level of commitment towards Health, Safety and Environment, GAIL had organized 1st edition of Oil and Gas HSE Conclave on 8th and 9th Dec, 2017 at Hotel Radisson, Noida on "Shaping HSE culture amidst global challenges" which was a great success. The event was attended by 400+ Oil and Gas professionals from India and abroad. The event itself had made the space among the HSE programs and conferences being arranged nationally and internationally. For further establishing the highest HSE standards and sharing best practices among major Oil and Gas industries, GAIL has now decided to hold 2nd edition of Oil and Gas HSE Conclave on "Driving HSE Culture for building resilient organization" for the benefit of Oil and Gas industries along with an exhibition on HSE Innovative technology, equipment & services. The ultimate objective of this conference is to help industries to further enhance organization safety culture, thereby protecting the assets, lives of people and environment. This event will provide an excellent opportunity and a platform for interaction with the leading and renowned HSE Professionals all around the world.
